Usage and compatibility

Mass storage device intended for use as an internal storage device in desktop and laptop computers.

This product is compatible with the following operating systems:

- Windows® XP® / Vista / 7 / 8 / 8.1 / 10
- Mac OS X 10.4 and newer (formatting the drive to a file system other than NTFS is required)
- Linux

This product is dedicated for consumer-class applications. This product is not intended to be used in systems, that require high performance or high reliability (e.g. servers, industrial applications), unless it is stated that the product is dedicated for these applications.

To achieve the highest performance, please connect SSD to SATA III interface. This SSD is also compatible with SATA II and SATA I interfaces, but connecting it will limit its performance to the level, specified by these interfaces. Please refer to your computer/motherboard manual to check their compatibility with SSD. WARNING: Computer configuration and operating system may affect

Installation

performance of this SSD.

Before installing the SSD, please ensure that your computer is turned off, unplugged from the power source and equipped with a SATA interface. Otherwise this SSD may be incompatible.

After connecting SSD to the SATA interface, you most format the drive using operating system tools.

If SSD is mounted into laptop with 9.5 mm drive bay, use the attached spacer by attaching it to the SSD.

Capacity

Storage capacity for GOODRAM SSD is always expressed in decimal values. That means, 1GB equals 1 000 000 000 bytes. Operating system that use the binary conversion eq. 1GB equals 1 073 741 824 bytes may show lower storage capacity value than advertised. Additionally, a part of the storage is reserved for files and firmware, managing the drive.
