IN THE EVENT OF ANY CONFLICTS BETWEEN THIS MANUAL AND THE APPLICABLE LAW, THE LATER PREVAILS.

Regulatory Information

FCC Information

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC compliance: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense

FCC Conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

EU Conformity Statement

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the EMC Directive 2014/30/EU, the LVD Directive 2014/35/EU, the ROHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is

marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info

Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (A)/NMB-3(A) standards requirements.

Applicable Models

This manual is applicable to the model: Monitor.

Symbol Conventions

The symbols that may be found in this document are defined as follows.

Symbol	Description
 NOTE	Provides additional information to emphasize or supplement important points of the main text.
 WARNING	Indicates a potentially hazardous situation, which if not avoided, could result in equipment damage, data loss, performance degradation, or unexpected results.
 DANGER	Indicates a hazard with a high level of risk, which if not avoided, will result in death or serious injury.

The mains plug of the equipment is used as disconnect devices, the socket-outlet shall be installed near the equipment and shall be easily accessible;

Note:

Forward tilt of the whole machine is not recommended in use; if there is a need for forward tilt, it is recommended that the forward tilt angle should not exceed 5 degrees.

TABLE OF CONTENTS

1.Introduction	1
1.1 Key Features.....	1
1.2 Power Supply Connection.....	1
2.Device Interfaces	2
3.Panel keys	2
4.Basic Operation	3

Chapter 1. Introduction

1.1 Key Features

- Supports 1920 × 1080 FHD display;
- User-friendly operation menu;
- Three image modes to adapt different environment;
- 1 channel HDMI 1.3 input interface;
- Supports software spread-spectrum technology to reduce EM radiation;
- Standby Power Consumption is lower than 0.5W;
- Viewing Angle: Horizontal 178°, Vertical 178°;

1.2 Power Supply Connection

Insert the 3-pin power device into well-grounded socket and turn the rocker switch on.

Figure 1.1 Power Input

- Turn off computer and unplug power cord.
- To plug pc and monitor adapter to the nearest socket.
- If the monitor is not used for a long time, the “POWER” switch of the monitor should be turned off and the adapter plug should be unplugged from the power outlet.

Chapter2. Device Interfaces
