GB - Introduction

Thank you for your purchase of the Targus Wireless Optical Mouse. The accompanying micro USB receiver is small enough to leave plugged into your computer or simply store it inside the mouse when travelling. This is a plug and play device so no additional software is required.

Contents

- Targus Wireless Optical Mouse
- 2 x AAA Energizer® MAX® Batteries
- Micro USB Receiver
- User Guide

System Requirements

Hardware

- USB port

Operating System

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 or later

Installing the Batteries

1. Remove the battery cover from the top of the mouse by using the notch on the back. Carefully lift the cover up as shown in the diagram.

2. Insert the two AAA batteries, making sure that the positive (+) and negative (-) ends of each battery match the polarity indicators inside the battery compartment.

3. Replace the battery cover.

NOTE: THE FRONT OF THE LID SHOULD BE INSERTED FIRST BEFORE SNAPPING THE BACK OF THE LID DOWN.

Establishing the Connection

- (A) Remove the micro USB receiver stored inside the center compartment.

- (B) Plug the USB receiver into an available USB port on your computer.

- (C) Press the Connect Button on the bottom of the mouse. You are now ready to use the mouse.

Power On:

Slide the power switch to the ON position.

Power Off:

Slide the power switch to the OFF position.

Power Saving mode:

After an extended period of time, if the mouse is not used, it will automatically enter power saving mode to conserve power and increase battery life. Click on any mouse button or simply move the mouse to resume the normal operation. The mouse may take a few seconds to reconnect with your computer.

Battery Life Indicator

- The low power light will start flashing when less than 5% of the battery power remains. Replace the batteries as soon as possible

**Power Management**

- To extend the life of your battery, turn off the mouse while travelling or when you're not using it.

DE – Einführung

Vielen Dank, dass Sie sich für die Schnurlose, optische Maus von Targus entschieden haben. Der mitgelieferte Micro USB-Receiver ist so klein, dass Sie ihn auf Reisen in Ihrem Computer eingesteckt lassen oder ihn in der Maus verstauen können. Das Gerät ist sofort betriebsbereit, es ist keine zusätzliche Software erforderlich.

Inhalt

- Schnurlose, optische Maus von Targus
- Micro USB-Receiver
- Bedienungsanleitung

Systemanforderungen**Hardware**

- USB-Schnittstelle

Betriebssystem

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 oder später

Einsetzen der Batterien

- Entfernen Sie die Batterieabdeckung von der Oberseite der Maus, indem Sie die Aussparung an der Rückseite benutzen. Heben Sie, wie im Diagramm dargestellt, den Deckel vorsichtig an.

- Legen Sie die AAA-Batterien ein. Stellen Sie sicher, dass die positiven (+) und negativen (-) Enden mit den Polaritätsanzeigen im Inneren des Batteriefachs

3. Fügen Sie die Batterieabdeckung wieder ein.

HINWEIS: DIE VORDERSEITE DES LID SOLLTE EINGESTECKT WERDEN, BEVOR DIE RÜCKSEITE DES LID HERUNTERGEKLAFFT WIRD.

Verbindung herstellen

- (A) Nehmen Sie den Micro-USB-Receiver heraus.

- (B) Stecken Sie den USB-Receiver in einen freien USB Port an Ihrem Computer.

- (C) Drücken Sie die Connect-Taste an der Unterseite der Maus. Sie sind nun bereit, um die Maus zu benutzen.

Einschalten:
Schieben Sie den Stromschalter auf die AN-Position.

Ausschalten:
Schieben Sie den Stromschalter auf die AUS-Position.

Energiesparmodus:
Wenn die Maus über einen gewissen Zeitraum nicht benutzt wurde, schaltet sie automatisch in den Stromsparmodus, um Energie zu sparen und die Lebensdauer der Batterie zu verlängern. Klicken Sie auf eine beliebige Maustaste oder bewegen Sie einfach die Maus, um in den normalen Betrieb zurück zu kehren. Die Maus benötigt u.U. einige Sekunden, um die Verbindung mit Ihrem Computer wieder herzustellen.

Batterieindikator

- Die Anzeige für eine schwache Batterie beginnt zu blinken, sobald weniger als 5% der Batteriekapazität verbleibt. Tauschen Sie die Batterien so schnell wie möglich aus.

Energieverwaltung

- Schalten Sie die Maus auf Reisen oder bei Nichtverwendung ab, um die Lebensdauer der Batterien zu verlängern.

DE

ES – Introducción

Le agradecemos la adquisición del Ratón de óptico inalámbrico Targus. El micro receptor USB incluido es suficientemente pequeño para poder dejarlo conectado al ordenador o también puede guardarlo dentro del ratón durante los viajes. Este es un dispositivo plug-n-play que no requiere software adicional.

Contenido

- Ratón de óptico inalámbrico Targus
- 2 pilas AAA
- Micro receptor USB
- Manual de instrucciones

Requisitos del Sistema

Hardware

- Interfaz USB

Sistema Operativo

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 o versión más reciente

Instalación de las Pilas

1. Retire la tapa de las pilas de la parte superior del ratón utilizando la muesca posterior. Levante la tapa con precaución tal y como indica el diagrama.

2. Instale la pila AAA, respetando la señal positiva (+) y negativa (-) de polaridad del interior del compartimento.

3. Vuelva a colocar la tapa de la pila.

 **NOTA: SE DEBE INTRODUCIR LA PARTE ANTERIOR DE LA TAPA ANTES DE CERRAR A PRESIÓN LA PARTE POSTERIOR DE DICHA TAPA.**

Establecer la Conexión

- (A) Extraiga el micro receptor USB.

- (B) Conecte el receptor USB en cualquier puerto USB libre del ordenador.

- (C) Pulse el botón Conectar en la parte inferior del ratón. Ahora está listo para utilizar el ratón.

Encender:

Sitúe el interruptor en la posición ON.

Apagar:

Sitúe el interruptor en la posición OFF.

Modo de Ahorro de Energía:

Después de un amplio periodo de tiempo sin usar el ratón, éste entrará automáticamente en modo de ahorro para conservar la energía y aumentar la vida de la batería. Haga clic en cualquier botón del ratón o simplemente mueva el ratón para reanudar el funcionamiento normal. El ratón puede tardar unos segundos en volverse a conectar a su ordenador.

Indicador de pila

- La luz de corriente baja comenzará a parpadear cuando quede menos de un 5% de energía en la batería. Sustituya las pilas lo antes posible.

Indicador de pila

Gestión de la Alimentación

- Para prolongar la duración de las pilas, apague el ratón cuando viaje o no lo utilice.

FR – Introduction

Nous vous remercions d'avoir acheté cette Souris optique sans fil de Targus. Son récepteur micro USB est suffisamment petit pour rester constamment branché sur l'ordinateur ou pour être rangé dans la souris et ainsi ne pas le perdre lorsque vous vous déplacez. Cette souris est de type Plug & Play et ne requiert donc aucun pilote spécifique.

Contenu de la boîte

- Souris optique sans fil de Targus
- 2 x piles AAA
- Récepteur micro USB
- Manuel d'utilisateur

Configuration système requise

Matériel

- Interface USB

Système d'exploitation

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 ou supérieure

Installation des piles

1. Retirez le couvercle du compartiment de piles sur le dessus de la souris, à l'aide de l'encoche prévue à l'arrière. Soulevez délicatement le couvercle, comme indiqué sur la figure.

2. Insérez la pile de type AAA, en respectant le sens des polarités positive (+) et négative (-) indiquées à l'intérieur du compartiment de la pile.

3. Remplacez le couvercle du compartiment de la pile.

REMARQUE: INSÉREZ EN PREMIER LA PARTIE AVANT DU COUVERCLE, PUIS ENCLENCHEZ LA PARTIE ARRIÈRE EN POSITION.

Établissement de la connexion

- (A) Débranchez le mini récepteur USB.

- (B) Connectez le récepteur USB sur l'un des ports USB disponibles de votre ordinateur.

- (C) Appuyez sur le bouton Connect sur le fond de la souris. Vous êtes maintenant prêt à utiliser la souris.

Mise en route :
Faites glisser l'interrupteur en position ON (MARCHÉ).

Mise hors tension :
Faisant glisser l'interrupteur en position OFF (ARRÊT).

Mode économie d'énergie :

La souris se place automatiquement en mode économie d'énergie lorsque vous ne l'utilisez pas pendant un certain temps, afin de ne pas gaspiller l'énergie des piles. Cliquez sur l'un quelconque des boutons de la souris ou simplement déplacez la souris pour la réactiver. La reconnexion à l'ordinateur peut prendre quelques secondes.

Indicateur de puissance des piles

- Si les piles sont trop déchargées (il reste moins de 5% de la puissance disponible), le témoin de marche vous le signale en clignotant toutes les 3 secondes. Remplacez alors les piles le plus vite possible.

Indicateur de puissance des piles

Économie d'énergie

- Éteignez votre souris lorsque vous vous déplacez ou ne l'utilisez pas piles dureront ainsi plus longtemps.

FR

IT – Introduzione

Grazie per aver acquistato il Mouse Wireless ottico Targus. Il ricevitore micro USB che lo accompagna è sufficientemente piccolo da poterlo lasciare collegato al computer o da riporlo semplicemente dentro il mouse quando si viaggia. È un apparecchio plug and play quindi non occorre software aggiuntivo.

Contenuto

- Mouse Wireless ottico Targus
- 2 x batterie AAA
- Micro ricevitore USB
- Guida per l'utente

Requisiti necessari al sistema

Hardware

- Interfaccia USB

Sistema operativo

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 o successivo

Installare le batterie

1. Rimuovere il coperchio dalla parte superiore del mouse usando l'incavo sul retro. Sollevare il coperchio con cura come mostrato nel diagramma.

2. Inserire le batterie AAA, assicurandosi che le estremità positiva (+) e negativa (-) combacino con gli indicatori di polarità nel vano batterie.

3. Rimettere il coperchio sul vano batterie.

NOTA: PRIMA DI FAR SCATTARE IN POSIZIONE LA PARTE POSTERIORE DEL COPERCHIO INSERIRE LA PARTE ANTERIORE.

Stabilire il collegamento

- (A) Estrarre il ricevitore micro USB.

- (B) Inserire il ricevitore USB in una porta USB disponibile del computer.

- (C) Premere il pulsante Connect sulla parte inferiore del mouse. Ora siete pronti per utilizzare il mouse.

Accensione:

Fare scorrere l'interruttore di alimentazione sulla posizione ON.

Spegnimento:

Fare scorrere l'interruttore di alimentazione sulla posizione OFF.

Modalità di risparmio energetico:

Se non si usa il mouse per un certo tempo entrerà automaticamente in modalità di risparmio energetico per conservare energia e allungare la vita della batteria. Fare clic su un tasto qualsiasi del mouse o spostarlo ne riavvia le funzioni. Può occorrere qualche secondo perché il mouse si ricollegli al computer.

Indicatore della batteria

- Quando rimane meno del 5% di carica alla batteria la luce dell'alimentazione inizia a lampeggiare a intervalli. Sostituire le batterie appena possibile.

Indicatore della batteria

Gestione della carica

- Per prolungare la vita delle batterie spegnere il mouse durante il trasporto o quando non lo si usa.

NL – Introductie

Hartelijk dank voor de aanschaf van de Targus draadloze optische muis. De bijgeleverde micro USB ontvanger is klein genoeg om tijdens uw reizen uw computer aangesloten te blijven maar het kan ook eenvoudig worden opgeborgen in de muis. Dit is een "plug-n-play" ("insteken en spelen") apparaat en u heeft daarom geen extra software nodig.

Inhoud

- Targus draadloze optische muis
- 2 x AAA batterijen
- Micro USB ontvanger
- Gebruikershandleiding

Systeemvereisten**Hardware**

- USB communicatie

Besturingssysteem

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 of recenter

De batterijen installeren

- Verwijder het batterijdeksel van de bovenkant van de muis door de gleuf aan de achterkant te gebruiken. Til het deksel voorzichtig op zoals aangegeven in het figuur.

- Plaats de AAA batterij, ervoor zorgend dat de positieve (+) en negatieve (-) einden van de batterij overeenkomen met de polariteitsindicatoren binnenin het batterijcompartiment.

3. Plaats het batterijdeksel weer terug.

 **OPMERKING:** DE VOORZIJDE VAN HET DEKSEL MOET INGEBRACHT WORDEN VOORDAT U DE ACHTERKANT ERVAN KUNT NEERKLAPPEN.

De verbinding tot stand brengen

- (A) Neem de mini USB ontvanger uit de verpakking.

- (B) Steek de USB ontvanger in een beschikbare USB uitgang op uw computer.

- (C) Druk op de knop Connect aan de onderkant van de muis. U bent nu klaar om de muis te gebruiken.

Inschakelen:
Schuif de stroomknop naar de ON (AAN) positie.

Uitschakelen:
Schuif de stroomknop naar de OFF (UIT) positie.

Modus energiebesparing:

Wanneer de muis een bepaalde tijd niet wordt gebruikt, gaat zij automatisch over in de stroombesparingsmodus om stroom te besparen en de levensduur van de batterij te verlengen. Klik op eender welke muistoets om de normale werking te hervatten. Het kan enkele seconden duren voordat de muis opnieuw verbinding krijgt met uw computer.

Batterij-indicator

- Het controlelampje zwakke batterijen knippert om wanneer minder dan 5% batterijstroom restereert. Vervang dan de batterij zo gauw mogelijk.

Energiemanagement

- Schakel, om de levensduur van uw batterij te verlengen, de muis uit tijdens reizen of wanneer u het niet gebruikt.

NL

PT – Introdução

Obrigado por ter comprado o Rato Óptico sem Fios Targus. O micro receptor USB que o acompanha é suficientemente pequeno para o deixar ligado no seu computador ou simplesmente guardá-lo dentro do rato quando viajar. Este é um dispositivo "plug-n-play" (ligar e usar) e não precisa de software adicional.

Índice

- Rato Óptico sem Fios Targus
- 2 baterias AAA
- Micro receptor USB
- Guia do Utilizador

Requisitos do sistema

Hardware
• Interface USB

Sistema operativo
• Microsoft Windows® 2000
• Microsoft Windows® XP
• Microsoft Windows Vista®
• Microsoft Windows® 7
• Microsoft Windows® 8
• Mac OS® X 10.4 ou posterior

Instalação das pilhas

1. Retire a tampa das pilhas da parte superior do rato, utilizando o encaixe na parte de trás. Levante cuidadosamente a tampa, como se indica no diagrama.

2. Introduza a pilha AAA, certificando-se de que o pólo positivo (+) e o pólo negativo (-) em cada uma das extremidades da pilha coincidem com os indicadores de polaridade no interior do respectivo compartimento.

3. Recoloque a tampa do compartimento da pilha.

Fazer a ligação

- (A) Retire o receptor Micro USB.

- (B) Ligue o receptor USB na porta USB disponível do seu computador.

- (C) Pressione o botão Conectar na parte inferior do mouse. Agora você está pronto para usar o rato.

Ligado: (ON)

Desloque o interruptor de corrente para a posição ON (Ligar).

Desligado: (OFF)

Desloque o interruptor de corrente para a posição OFF (Desligar).

Modo de poupança de energia:

Se o rato não for utilizado durante um período de tempo alargado, entra automaticamente no modo de poupança de energia, conservando energia e aumentando a vida útil da pilha. Clique em qualquer botão ou desloque simplesmente o rato para retomar o modo de funcionamento normal. O rato pode demorar alguns segundos a restabelecer a ligação com o seu computador.

Indicador da pilha

- A luz indicadora de pouca carga da pilha começa a piscar a quando a energia restante da pilha for inferior a 5%. Substitua a pilha o mais breve possível.

Indicador da pilha

Gestão de energia

- Para prolongar a vida da sua bateria, desligue o rato quando viajar ou não estiver a usar.

- Mikro USB alıcı
- Kullanım Kılavuzu

Sistem Gereksinimleri

Donanım

- USB arayüzü

İşletim Sistemi

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- Microsoft Windows® 8
- Mac OS® X 10.4 veya üstü

Pilleri Yerleştirme

1. Arkadaki çıkıntıyı kullanarak farenin üstündeki pil kapağını çıkarın. Çizimde gösterildiği gibi kapağı dikkatle yukarı kaldırın.

2. Pozitif (+) ve negatif (-) kutupların pil bölmesindeki kutup göstergeleriyle eşleştiğinden emin olarak AAA pili yerleştirin.

3. Pil kapağını takın.

NOT: KAPAĞIN ARKASINA BASTIRILMADAN ÖNCE ÖN TARAFI TAKILMALIDIR.

Bağlantı Kurma

- (A) Mikro USB alıcıyı çıkarın.

- (B) USB alıcısını bilgisayardaki kullanılabilir bir USB bağlantısına takın.

- (C) Farenin altındaki Connect Butonuna basın. Artık fare kullanmaya hazırsınız.

Güç Açık:
Güç düğmesini ON (Açık) konumuna kaydırın

Güç Kapalı:
Güç düğmesini OFF (Kapalı) konumuna kaydırın

Güç Tasarrufu modu:
Fare bir süre kullanılmazsa, güç tasarrufu yapmak ve pil ömrünü artırmak için otomatik olarak güç tasarrufu moduna girecektir. Normal çalışmasına geri dönmesi için herhangi bir düğmeye basın veya sadece fareyi hareket ettirin. Farenin bilgisayarınızla yeniden bağlantı kurması birkaç saniye sürecektir.

Pil Göstergesi

- Pil gücü %5'ten az kaldığında düşük pil ışığı her saniyede bir yanmaya başlayacaktır. Mümkün olduğunca kısa sürede pilleri değiştirin.

Güç Yönetimi

- Piliğinizin ömrünü uzatmak için seyahat sırasında veya kullanmadığınızda fareyi kapatın.

The product placed on the market, including cables and spare parts for its repair, its reuse, updating of its functionalities or upgrading of its capacity, does not contain the substances:

Lead (0,1 %); Mercury (0,1 %); Cadmium (0,01 %); Hexavalent chromium (0,1 %); Polybrominated biphenyls (PBB) (0,1 %); Polybrominated diphenyl ethers (PBDE) (0,1 %).

Warranty –

<http://www.targus.com/uk/warranty>

Targus warrants this product to be free from defects in materials and workmanship for two years. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to a computer; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Power Management

All electronic products sold by Targus should be used in an energy efficient way, for example battery operated devices should be, where possible, switched off when not in use, and AC adapter products should be unplugged to ensure unnecessary power is not consumed.

Recycling Instruction

Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems). This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.
